

Table: Rubrics for Continuous Internal Evaluation for Project Work

Parameters	Marks	Outstanding	Good/Average	Poor
Innovative Topic	10	The topic is in the mechanical engineering domain, contemporary and is in line with modern trend and totally innovative	The topic is in the mechanical engineering domain, but not contemporary and not is in line with modern trend	The topic is not in the mechanical engineering domain, not contemporary and not is in line with modern trend and not innovative
		10	5	2
Literature Survey	30	Referred Peer reviewed journals, books, conference proceedings and videos and also clearly explains the development and current state of the chosen topic	Referred journals, books, conference proceedings and videos and not clearly explains the development and current state of the chosen topic	Not Referred any journals, books, conference proceedings and videos and also not clearly explains the development and current state of the chosen topic
		30	15	05 Marks
Presentation of Project Work and viva voce	20	Presentation performance, Subject knowledge and Personality and communication skills are well	Presentation performance, Subject knowledge and Personality and communication skills are not good.	Presentation performance, Subject knowledge is not good and Personality and communication skills are not good.
		20 Marks	20 Marks	10 Marks
Project Report	30	Organizing of the content is well, follow the formats, Explanations and Properly cited and Efforts in preparing the report	Organizing of the content is well, follow the formats, not Explain properly and not cited and less Efforts in preparing the report	Organizing of the content is not well, not follow the formats, not Explain properly and not cited and less efforts in preparing the report
		30 Marks	15 Marks	05 Marks
Overall Performance	10	Neatly dress, Properly use of modern tools, Presented the technical paper	Neatly dress, not properly use of modern tools, not presented the technical paper	Not neatly dress, no properly use of modern tools, not presented the technical paper
		10 Marks	05 Marks	2 Marks
